

2021 Summer Meeting

Written By: Macy Young

Edited by: Emma Bennett

The summer meeting took place at the beginning of July and ,as a chapter, our members and officers came together to discuss the 2021 Clark County Fair and assign corn booth shifts for our members to work. The corn booth shifts include at least 3 shifts per member and last two hours each. The corn booth is one way our chapter helps raise money for our organization to succeed and grow. We also planned out set-up times for every barn in order to make sure each area was animal, display, and public ready. We then discussed fair expectations and what was needed to finalize all plans. We got rid of the home improvement requirement for our chapter due to this being a hard goal for many of our members to reach each year. We then ended the meeting by answering any further questions regarding the fair and the upcoming 2021-2022 school year!
