

The 2021 Clark County Fair Experience

Written By: Emma Bennett

Edited By : Macy Timmons

The week of July 23 through the 30th of 2021 the Greenon FFA members presented their SAE projects at the Clark County Fair. Our members showed and displayed their SAE's at the fair which they have been working on for many months to make sure projects are fair ready. SAE's are supervised agricultural experiences and are one of the biggest things ffa members are expected to do and participate in when in this program. The projects students show and or present can range from a garden or livestock. The chapter members are expected to follow the fair rules the fair board sends out every year. Greenon FFA chapter members are expected to be considerate and helpful to members in our chapter and other chapters.
