2023 Summer Meeting and Officer Retreat

During the summer our new officer team met to have a meeting to address the upcoming school year and the fair. We did team bonding and figured out how to work with each other. We planned some of our activities for the school year and gave ideas for new activities we could do throughout the year. We set goals for our chapter as well as our officer team. It's important for us to set goals for this year so that we can measure our progress and success at the end of the year. We spent 3 days as an officer team planning out everything and on the 3rd day, we had a meeting with our whole chapter to address the fair. We wanted to go over our expectations for all our members and inform them of everything they are responsible for. We told our members about our fair set-up times, picked up their wristbands, and made sure they got their SAEs to the fair. We also talked to our members about their corn booth days and had them all sign up for 3 shifts to help out the alumni. Overall, we had a very productive 3 days as an officer team and felt ready to take on the year!
